

ZoomX Help

I was a ZoomX user last year.

Welcome back! You don't need to re-download the app. Just log in (same username and password). Make sure you have the latest version of ZoomX (check the App Store or Google Play for any "updates"). Be sure to click "Save Password" so you don't have to login every time you access the app!

I am a NEW user this year.

Welcome! As a member of our community, you will be able to download ZoomX for free from the App Store (iPhone users) or Google Play (Android users).

The school has created an account for you. Simply set your password to activate your account.

I want to access the ZoomX App from a Tablet, Mac or PC.

That works too! Open a web browser and visit www.zoomx.us. Click on "Sign In" in the upper-right corner. Enter the email address listed for you and click "Reset Password." You will be sent an email with a link to reset your password. Once you have that, re-launch the ZoomX app and login with your username and password. Be sure to click "Save Password" so you don't have to login every time you access the app!

What are some functions I should know about?

- Once logged in you will be able to access guides, faqs and additional how to's.
